# ALICE JULIANA A

BCA STUDENT | TECH ENTHUSIAST

## PROFILE

Final-year BCA student with a strong interest in web development, UX/UI design, and Data Science, with practical knowledge of HTML, CSS, JavaScript (Basic), Bootstrap, and Python. I love learning new things and am always eager to grow my skills while solving problems using various tools. Curious about how data and design come together to build meaningful experiences, I enjoy exploring areas like data visualization and analytical thinking. Motivated to contribute to meaningful projects and create intuitive, user-friendly digital solutions. Passionate about developing efficient and impactful solutions that add real value to users and businesses alike.

## PROJECTS

- AI-Based Travel Guide - Python, HTML, CSS, JavaScript**  
Developed an interactive travel guide with real-time weather updates, destination insights, and a basic chatbot to assist with queries.
- Christ Electronics - HTML, CSS, JavaScript, Bootstrap**  
Developed a prototype e-commerce website for electronic products with interactive browsing and product selection features.
- Aarogyaa Vayu Rental & Sales Dashboard - Google Apps Script, HTML, CSS**
