ABOUT

With a background in economics and psychology, I approach problem-solving by balancing data with human insight. My experience spans projects that required clear thinking under pressure, from academic research to event coordination. I am motivated by the challenge of turning complexity into clarity and making that clarity meaningful for others.

INTERNSHIP EXPERIENCE

INSTITUTE FOR SOCIAL AND ECONOMIC CHANGE (ISEC)

June 2025- July 2025

Research Intern

- Conducting field research on the ecological, cultural, and economic significance of temple tanks.
