PROFILE

Detail-oriented and analytical Commerce student with a strong foundation in financial management and data analysis. Qualified CMA with hands-on experience in financial modeling, business intelligence tools, and Excel-based reporting. Completed case-based simulations from global firms including J.P. Morgan and PwC. Proven ability to synthesize financial data, generate actionable insights, and build interactive dashboards using Tableau and Excel. Eager to contribute to data-driven decision-making in a fast-paced analyst role.
