

M. JAYARAKSANA

ECONOMICS HONOURS STUDENT

jayaraksana11@gmail.com | +91 8220019496

SUMMARY

A results-driven Economics Honours student with a strong foundation in data analysis and a keen interest in financial operations. Experienced in handling government datasets and translating complex data into actionable insights through well-structured research. Demonstrates clarity in communication, attention to detail, and a proactive work ethic.

ACADEMIC PROJECTS

1) "Role of MUDRA in Promoting Micro-entrepreneurship: Disbursal Trends Among Top 5 Indian States" (Web of Science Journal, Published, 2024)

- Analyzed government datasets to compare financial disbursement patterns and evaluate policy outcomes for micro-enterprise support.
- Interpreted data trends to assess the effectiveness of financial support programs and their impact on different regions.

2) "Khadi and Village Industries – A Study on Sales and Production Efficiency" (Indian Social Science Journal, Best Paper Award, 2024)

- Studied official reports to identify inefficiencies and policy gaps in labour productivity and sales trends.
- Proposed actionable measures to improve efficiency based on observed disparities.

3) IIM Bangalore - Research Intern

- Working on a research paper to study people's response to short video health content.
- Developing data collection methods and analyzing public response trends to contribute to the research findings.
