Presented at St. Joseph College of Commerce

Selected for Publication - 12th September 2024, awaiting for the final publication.

Projects

Kaccha Aam(Raw manago)

As part of a local business survey project, I conducted a study on a Kaccha Aam (raw mango) vendor near my college. I surveyed several students to gather feedback on various aspects including: Taste, Price, Quality, Suggestions for improvement. After collecting the responses, I organized and analyzed the data using Microsoft Excel. The final presentation included categorized insights, graphs, and key takeaways based on student preferences and recommendations to help the vendor improve product and service quality.
