Objective

Motivated BBA student with hands-on experience in research, documentation, client coordination, and data analysis through internships in business analysis and operations. I aim to contribute to the EDD/CCS team by applying my strengths in secondary research, financial statement understanding, and structured problem-solving to support integrity and counterparty due diligence. With familiarity in Excel, SQL, regulatory basics, and ownership structure research, I am committed to delivering clear documentation, negative news insights, and timely, high-quality risk assessments aligned with productivity and accuracy standards.
