Proven Solutions for Data Forensics, eDiscovery, Document Review, Advisory & Transformation, and Talent Solutions

From our dedicated Solutions Experts and Project Managers—who hold over 300 Relativity Certifications—to our quality assurance, technology and security teams, every eDiscovery and Risk Management professional across our practice areas are focused on helping you find what matters when it mattersSM.

eDiscovery Consulting Services & Analytics

With innovative pricing models, a global footprint and over a decade of experience across the eDiscovery life-cycle—from collections to hosting to processing to production—Consilio's experts work with your team to develop the optimal solution, whether the matter is a local project or large, complex and multi-jurisdictional.

Advisory & Transformation

Growing information governance and compliance challenges can be difficult for organizations to navigate. Our industry-leading, award-winning experts pair with you to mitigate risk and cost through the design, development, and implementation of all aspects of enterprise-wide advisory & transformation initiatives – from contract management to risk management and compliance.

Talent Solutions

Whether responding to unprecedented demand or moving to more aggressively attract and retain talent, Talent Solutions by Complete Enterprise offers clients high-quality talent solutions covering a wide-spectrum of enterprise resourcing needs. Whether you need a legal expert for short or long-term engagement, it's the ultimate cost-effective and flexible option – that never compromises expertise.

Document Review Services

Each review is different. We help you deliver defensible productions by drawing from our best-practice workflows, rigorous quality assurance protocols, and innovative predicting coding models. Our team can support a review anywhere within the world—whether staffing or overseeing the entire review.

Data Forensics & Investigations

Consilio's team of full-time, certified forensics advisors and investigators are experts in data acquisition, analysis and recovery, as well as collection and preservation of evidence—across all of the most widely used data types, sources, platforms, and devices.
