PROJECTS

JPMorgan Chase Investment Banking Job Simulation on Forage October 2025

- Identified an ideal M&A target for a client based on an assessment of their strategic and financial criteria.
- Constructed a DCF model to calculate the valuation of the M&A target and adjusted the model to account for a competitor bid and supply chain interruption.
- Created a 2-pager for the client containing a company profile and summary of the auction process.

The Complete Financial Analyst Course on Udemy July 2025

- Analyzed company's performance by building 3-statement financial models and calculating liquidity, profitability and solvency ratios.
- Evaluated project feasibility by performing capital budgeting analysis and determining Net Present Value (NPV) and Internal Rate of Return (IRR).
- Assembled financial data into a comprehensive slide check presentation to summarize findings and provide recommendations.
