## SUMMARY

Economics enthusiast with data analysis skills and experience in financial analysis, market research, and event management. Eager to learn and adapt, with a strong work ethic and analytical mindset. Seeking a role that offers growth and development opportunities.

## EXPERIENCE

### Intern, Svadhyaya Learning Space, Bengaluru

November 2023

- Analysed five years of financial statements and daily revenue for a startup interested in investing in Svadhyaya Learning Space, providing insights that influenced the decision-making process.
- Conducted on-site evaluations and market research to assess potential locations for business expansion.
- Assisted in event management by overseeing the pottery section during an event, ensuring a smooth and engaging experience for participants.
- Gained experience working in both strategic planning and customer-facing roles within a dynamic learning environment.

### Research Assistance, Mount Carmel College

November 2023 - Jan 2024

#### Key Research Contributions

- Conducted in-depth analysis of government-issued EV policies across selected Indian states.
- Identified key policy objectives, target figures, and actual implementation status.
- Provided data and research support for the economic analysis of the total cost of ownership for petrol and electric two-wheelers.

#### Fundraising Experience

- Jankalyan Multipurpose Education Society:** Led fundraising efforts for the SHIKSHA project, securing Rs. 5000 within a week. Demonstrated skill in communication, and networking.
- Odisha Development Management Program:** Contributed to fundraising initiatives supporting waste pickers and their families in Odisha. Developed skills in donor identification and effective communication of social impact.

## EDUCATION

### The Valley School, KFI, Kanakapura Road

June 2021 - March 2023
