## PROJECTS

### Restaurant Page
📅 02/2024 - 03/2024　　📍 Banglore

Developed a simple restaurant web application featuring a homepage with a navigation bar and a basic food ordering system. Implemented functionality for users to add or remove food items and place an order using JavaScript. This project showcases a solid understanding of HTML structure, CSS styling, and basic DOM manipulation with JavaScript.

### Gym Landing Page
📅 05/2024 - 06/2024　　📍 Bangalore, India

Created a landing page for a gym using HTML and CSS. The page includes structured sections for promotional content and features a sign-up form to collect customer details such as name, contact,number and email. This project demonstrates proficiency in layout design, form creation, and styling using CSS.

### Notes Saving Page
📅 07/2024 - 08/2024　　📍 Bangalore, India

Developed a simple web-based notes application that allows users to write, save, and delete notes using browser local storage. The interface is styled with Bootstrap for responsiveness and clean design. JavaScript handles note creation, deletion, and data persistence without a backend
